Indeed Daily 50 Jobs AI Skill

ദിവസവും 50 Indeed jobs, AI **നിങ്ങൾക്കായി കണ്ടെത്തിത്തരും.** Setup takes about 5 minutes.

50

fresh jobs every run, from Indeed India, posted in the last 1–7 days

0–100

match score for each job against your role, experience, location and salary

🚩

scam check: jobs asking for fees or "earn money from social media" get flagged and removed

1 sheet

all jobs with direct links and a status column. **You** apply, so no bot touches your account

01 What you need

- A **Claude** account (claude.ai). Skills work on Free, Pro, Max and higher plans.
- **Code execution / "Create and edit files"** turned on in *Settings → Capabilities*. Skills need it.
- A browser Claude can use: the **Claude in Chrome** extension, or the browser inside the **Claude desktop app**. The skill reads Indeed pages in it.
- The skill file: `indeed-daily-50-jobs.zip` (sent with this guide). **Don't unzip it.**

02 Install the skill

1. Open **claude.ai** (or the Claude desktop app) and click **Customize** in the left sidebar.
2. Go to **Skills** → click the **+** button → **+ Create skill.**
3. Choose **Upload a skill** and select `indeed-daily-50-jobs.zip`.
4. Make sure the skill's toggle is **on.** Done ✅

03 Run it (first time)

Open a new chat and paste this, changed for you:

```
Use the indeed-daily-50-jobs skill.
Role: digital marketing executive, social media executive
Experience: fresher
Location: Kochi, Calicut + remote OK
Minimum salary: ₹12,000 / month
Skills: Canva, Instagram, Meta Ads basics, SEO basics
Avoid: night shift, sales targets
```

Claude opens Indeed in the browser, runs 6–10 searches, reads the best jobs, and builds the **"Indeed 50 Jobs"** sheet. The first run takes about 10–15 minutes. If Indeed shows a **CAPTCHA** or sign-in page, solve it yourself; Claude waits.

04 Read your sheet

SCORE	0–100 fit with your profile. Start from the top.
SAFETY	Safe no red flags Check read it first (WhatsApp/Gmail-only contact, experience asked, odd shift) Avoid removed from the list
SAFETY NOTE	Why it was flagged. "Card only" = Claude saw only the search card, so open the job and read it.
LINK	Opens the job on Indeed. Apply there yourself.
STATUS	Change it to Applied / Skipped / Interview as you go.

05 Make it daily

Next day, just say **Run my Indeed 50 jobs**. Claude reuses your profile and adds a new tab with **only new jobs** (no repeats).
Want it automatic? Ask: *"Run this skill every morning at 8:40"*. Claude can set it up as a scheduled task where your plan supports it. The browser and the Claude app need to be open at that time.

06 Stay safe

- **Never pay** any registration, training, deposit or "document" fee for a job.
- Don't share Aadhaar, PAN or bank details before an interview and an offer.
- The skill **never applies for you.** Indeed doesn't allow bots to apply, and accounts can be closed for it.
- A score is a guide, not a guarantee. Always read the job before applying.
